SSLC	

INTERNSHIP

Intern,Web Development | InternPe.   *April 2024*

Gained hands-on experience in web development, working on various projects that involved front-end technologies. Expertise in semantic markup and accessibility standards and skills in layout design, animations, and responsive frameworks.

PROJECTS

YouTube video Search App

YouTube video search app using the YouTube Data API.Users can search for videos, view metadata and click thumbnails to watch on YouTube. It features a clean, ad-free interface with smooth pagination via a "Load More" button. The layout is inspired by YouTube's video cards, optimized for mobile responsiveness.

TestYantra Clone

Developed a responsive Testyantra clone that replicates the core functionality and design of the Testyantra web application by using React Js.

Personal Portfolio Website

A personal portfolio website to showcase my projects, skills, and contact information. The site is fully responsive and optimized for both desktop and mobile users.
